**Health System Patient Parking Validation Request Form
 for Health System Departments**

The University of Virginia Department of Parking and Transportation is able to setup garage validation billing accounts for Health System Departments to cover the cost of their patients and patients' visitors parking fees. Please visit the Parking and Transportation website for current parking rates and additional information about parking validations. These validations do not cover visitors of the Health System, vendors, students, residents, or employees. Requests for Patient Parking Validations must be approved by the Health System Parking Office.
